pmarchitiello@protonmail.com

Hello my name is Paul Marchitiello. I just graduated from CSU Sacramento with a Bachelor of Science degree in Computer Science. I have experience working with java, C#, javascript, HTML, CSS, SQL, Jira and Github.

Before I went back to school I taught myself C# and version control along with many other skills as I pursued my passion for game design. With this experience I proved to myself that I can learn anything so if I'm lacking any skills required for this role I know that in time I can learn them.

I'm eager to start working in tech so please feel free to contact me if you have any questions.

Sincerely,

Paul Marchitiello
